Developer passionate about learning and teaching. Experience in Mobile Application Development.

---

## #Projects

### Random Video Call app ( currently working )

We are a team of two working on this app.

We are using web RTC for peer to peer connections required for media transfer during a call.

Using firebase backend service.

### EarthQuaker Watcher app

GitHub link >>> <https://github.com/EarthQuakeWatcher>

EarthQuake Watcher is to find the recent earthquakes happened around the world.

Used Google Maps Api to show locations of earthquakes on Google Maps.

EarthQuakes data updates after every one minute. This data is retrieved from

USGS EarthQuake Hazards program using Volley Networking library.

**Worked with:** Volley Networking library, Google Maps, locations data
